

FOLLOW THESE EASY INSTRUCTIONS TO SET UP YOUR NEW PHONE SERVICE.

| | |
|---------------------------|--------------------------------------|
| Difficulty: 😊 Easy | Time to Complete: 🕒 5 Minutes |
|---------------------------|--------------------------------------|

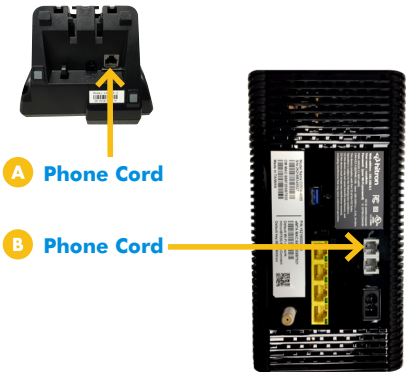

WHAT YOU'LL NEED:

| | | |
|---|---|--|
|  |  |  |
| Phone | Gateway | Phone Cord |

HOW TO SET UP YOUR PHONE:

After connecting the gateway using the *Ready-Set-Install* instruction guide, follow these steps to connect your phone line. To get started you will need a phone and a phone cord.

Note: For this activation step, do not connect the gateway phone port to any phone jacks in your home.

| | | |
|---|--|---|
| 1 | Connect the phone cord from your phone A into phone port #1 on the back of the gateway B . |  <p>The diagram illustrates the connection process. On the left, a close-up of a phone cord is shown with a yellow arrow labeled 'A' pointing to the cord. On the right, the back of a black gateway device is shown with a yellow arrow labeled 'B' pointing to the phone port.</p> |
| 2 | You should now hear a dial tone. | |
| 3 | From this phone, call the activation line at 1-888-674-4738 to complete the set up of your phone line and features. The activation team will assist you with connecting any additional phones. | |
