

WELCOME TO YOUR NEW TIVO VOICE REMOTE!

You're just a few easy steps from using the new TiVo Experience with Voice Remote.

1 Upgrade to TiVo Experience 4.

Using your *old* remote, press the TiVo button. If you see a screen titled "TiVo Central," just follow the steps below to upgrade to TiVo Experience 4. This upgrade may take up to 15 minutes.

(Don't see that screen?

That means you're already upgraded and can skip to Step 2.)

Please note: your new voice remote will not work until you upgrade to TiVo Experience 4.

- Choose *Apps > Get New Experience*.
- Follow the on-screen instructions.
- Restart your TiVo receiver. Go to *Settings & Messages > Help > Restart Box*.

2 If your package included a USB connector.

Insert the USB extension cable (with the USB connector attached) into one of your TiVo receiver's USB ports. For best results, place the connector (at the end of the cable) near, beside or on top of the TiVo receiver.

No USB connector in your package?

You're all set. You can skip to Step 3.

SEE OTHER SIDE FOR STEP 3.

3 Pair your new remote. Remove the back cover of the remote and insert two fresh AA batteries.

- The remote will attempt to automatically “pair” with your TiVo receiver. If the activity light at the top of the remote flashes yellow with each button-press, pairing is successful.
- If, instead, the activity light flashes red with each button press, you’ll need to manually pair the remote to the TiVo receiver. From the Home screen, choose the menu icon (), then choose *Settings > Remote, CableCARD & Devices (Remote & Devices on Mini) > Remote Control Setup > Remote Control Pairing* and follow the on-screen instructions.
