VIDEO APPS
EVERYTHING, WITH ONE REMOTE
When you search or browse for movies or individual episodes of a series, your results include videos available to stream from your selected video apps—no need to switch to a different input.
Don’t have time to watch it now? Rather than search for it again later, “bookmark” it to add a link to the video directly to My Shows.

THE SMARTBAR
READY WHEN YOU ARE
The SmartBar, located at the bottom of the Home screen, predicts shows to watch based on what your household usually watches at a particular time or day. For example, if you normally watch the previous night’s late-night talk show the next morning, you’ll see it in the SmartBar when you wake up. If the kids tend to watch shows while dinner’s cooking, those shows will be waiting in the SmartBar at that time each day.

QUICKVIEW
NEVER MISS A THING
While you’re watching live TV or a recorded show, QuickView lets you see what else is playing now or coming up without missing the action on the show you’re watching. It’s easy: press UP to see a mini guide; DOWN to display the SmartBar; LEFT to bring up your favorite channels; and RIGHT to take a look at what’s playing on other tuners.

QUICKMODE
IT’S NOT FAST-FORWARD, IT’S QUICKMODE!
QuickMode lets you watch a show 30% faster, while also letting you hear what everyone is saying! No chipmunks allowed.
QuickMode is available while you’re watching a recorded show, or if you’re “behind” live TV (for instance, if you have rewound a show that’s airing live). Just press PLAY to bring up the status bar, then SELECT to start QuickMode. Press PLAY and SELECT again to watch at normal speed.
